

Our strength in this sector has been working on the digitization of millions of documents within approved timelines. This effort has culminated in the easy access to records and information by the public.

By enabling the government and public sector with high-performance technology, we empower the public with quick access to needed information with the click of a button.

As public service is essential for governments to function properly, the right workflow and management of day-to-day operations in a public office enables governments to better serve the needs of its people. Tech One offers solutions that guarantee the deployment of efficient, timely, and productive services, allowing you to concentrate on catering to the needs of your constituents.

For organizations in the Government and Public Sector, Tech One readily offers these services:

- Document Digitization and Data Extraction of forms in large quantities, such as census records, passport applications, employee records, student files, surveys, legal and financial records, meeting minutes, etc.
- Uploading of Digitized Documents to Electronic Document Management Systems
- Digitization Services for Capturing Security Files
- Forms Processing Services
- Archives and Backlog Conversion of files such as newspaper clippings, photographs, audio and video files, microfilms, research papers, etc.
- Development of Intranet Sites, Solutions for Internal Workflows, Content Management using MOSS and SharePoint
- Document Imaging Solutions
- And many more

The Tech One team of well-trained professionals is certified by CompTIA CDIA+ (Certified Document Imaging Architect), and PMP-PMI (Project Management Professionals). Rest assured that Tech One has the best human resources in the industry to help you realize your business goals.
