

Maintain your clients' trust and confidence with your institution through Tech One's secure and up-to-date technological solutions.

Tech One offers professional and managed services to cater to the specific needs of banking and financial institutions. Tech One's offerings ensure that your technological infrastructure and security systems are efficient and up-to-date, allowing you to keep your clients' trust and confidence.

Tech One has served esteemed institutions in the banking and financial services industry by providing the following services:

- Document digitization and data entry in large volumes (in the millions) for credit card capture, loan capture, account opening, signature cards, leasing documents, and other advanced account documents
- Digitization and Indexing of Financial Records and Billing Documents
- Digitization to Process Finance-related Documents including Fixed Deposits, Loans, and Savings
- Archives/Backlog Conversion Services
- Data Extraction from Customer Information Forms
- Document Imaging Solutions
- And many others

To date, millions of bank and financial records from a number of esteemed banking institutions have been digitized to help organize everyday financial transactions.

The Tech One team of well-trained professionals is certified by CompTIA CDIA+ (Certified Document Imaging Architect), and PMP-PMI (Project Management Professionals). Rest assured that Tech One has the best human resources in the industry to help you realize your business goals.
