

At Tech One, we believe that we can support continued growth for SMEs by enabling them with technology that is up to date, manageable, and cost-effective.

Small and Medium Enterprises play a huge role in a nation's economic development. Given the disadvantage of having lesser resources compared to their larger counterparts, SMEs continue to contribute new products, promote employment, and encourage entrepreneurial development. In order for SMEs to avoid the challenge of maintaining costly business processes, Tech One ensures that SMEs gain the leverage they deserve in the market, by supplying cost-effective solutions that lead the way to enterprise growth.

Solutions for the Small and Medium Enterprises:

- Document Digitization and File Indexing
- Database Creation Using Structured and Semi-structured Physical and/or Online Forms
- Data Capture/Entry for Industry Leading Solutions
- Forms Designing and Forms Processing Services
- Data Collection and Presentation
- Consultancy and Training Services
- Information Sharing and Collaboration
- Security Implementation

Our solutions are designed to benefit all kinds of enterprise, from SMEs to multinationals, from a wide variety of industries.

The Tech One team of well-trained professionals is certified by CompTIA CDIA+ (Certified Document Imaging Architect), and PMP-PMI (Project Management Professionals). Rest assured that Tech One has the best human resources in the industry to help you realize your business goals.
